

Stephanie Jones

I became a member of Delta Kappa Gamma in 2005 while I was teaching Biology at Mississippi Gulf Coast Community College. I retired in 2012 due to medical problems but have remained active with DKG. I have been active at both the chapter and state level and have attended many regional and international conferences. I'm proudly serving as Alpha Lambda's chapter president for the 2022-2024 biennium. To say that I am honored to have been asked to serve as the MSO 1st Vice President is an understatement. To know that our state leaders have that kind of faith in me means a great deal! My main goal for the 2023-2025 biennium is to inspire and encourage members to become active, productive members at all levels of the Society.
